Mr. Blue said the inspectors' reports would prove that the board of managers was a private corporation holding government less than half a million dollars. Blue said the inspectors' reports would be that the board of managers was a vate corporation holding government sperty in its own name and buying and elling at its own name and buying and elling at its own sweet will. In concluding its arraignment Mr. Blue charged that uner Franklin's management last year \$250,000 of government property had been consemned or destroyed, and that the board and last year made a trip to the St. Monica home at a cost of \$6,000. He appreciated, he said, all the subtle and powerful influences at work to keep General Franklin on the board. He reiterated and reaffirmed the charges he had made and concluded with he statement that as long as he had a lace on the floor he would defend his com-ades against the brutality of the contempt-de man at the head of the Leavenworth

Mr. Curtis, of New York replied to Mr. Blue in a calm and temperate speech. He sked the House to consider carefully the narges preferred against General Franklin, the president of the board of managers, and overnor Smith. The charges, he said, were d. They had been investigated and the ofial report did not substantiate them. The affidavits produced by Mr. Blue were en-tirely ex parte. The trouble at Leavenworth prose out of complaints and charges made soulity of Governor Smith With regard to General Franklin, he said to those who know him he needed no defense. He had been wife of re-election by the members of the ard who knew his high character and lifications. In conclusion, Mr. Curtis paid agnificent personal tribute to General MR. STEELE'S SPEECH

Mr. Steele, a member of the board of managers, then made his impressive defense of the board mentioned previously. Mr. Blue's statement that what he did not know about the soldiers' home would fill a book, he said, was true, although he had been an active member of the board for four years. "But," he continued, "what I know about such charges as are brought in here would fill a library. Every member of the board is deluged with that kind of literature, and I can assure the House that all these charges are carefully investigated from time to time by a subcommittee of the board." He eucliogized the work of the homes, which, since their establishment, had cared for 75,000 soldiers and had expended \$40,000,000 without the into supply to-morrow and therefore the forced to take the cure. He had read a tel-egram from Governor Morrid, of Kansas, indorsing the management of the Leavene, and saying that he was reconsible for the organization of the Keeley ram from reputable citizens of Leaven-

At the opening of the session Mr. Bell called up the report of elections committee No. 2 on the case of Moorman vs. Latimer from the Third district of South Carolina, th was unanimously in favor of the member, and it was adopted without

THE DUPONT CASE.

Senator Gray Spends a Day in Disussing It, and Will Talk Again. WASHINGTON, April 15.-The Senate spent the entire day on the Dupont case, Mr. Gray, of Delaware, arguing against the claim of Mr. Dupont. During the day Mr. Gorman proposed an agreement that a final vote on the Dupont case be taken next esday. Mr. Mitchell, in charge of the case, declined to make an agreement at this time. This tender by Mr. Gorman was regarded as significant of the confidence of the opposition to Mr. Dupont to resist his opposition to Mr. Dupont to resist his claims to a seat. Mr. Gray will proceed with his speech to-morrow, after which there is promise of further clash over taking up the bond resolution, as Mr. Allison stated to-day that the bond question must give away to appropriation bills.

Bills were passed amending the law relating to the protection of salmon fisheries in Alaska; for the sale of public lands by private sale in the State of Missouri; to pay the heirs of Sterling D. Austin \$59,287; appropriating \$17,000 for acquiring burial grounds at Fort Meigs and Put-in-Bay island, Ohio, and the interment therein of the remains of soldiers and sailors of the war of 1812. At 5:30 p. m. the Senate adjourned.

TO BE REPEALED.

The Free-Alcohol Feature of the Wilson Tariff Law. WASHINGTON, April 15. - The House tee on ways and means to-day decided to report favorably the bill introduced by Mr. C. W. Stone, of Pennsylvania, to repeal the section of the Wilson act which gives free alcohol for use in the arts and ifactures. The internal-revenue officials have acknowledged their inability to

carry out the provisions of the law. Great frauds are said to be possible under the law and many large claims have been piled up against the government under the law.

Secretary Carlisle and Internal Revenue Collector Miller agreed that without additional legislation it would be impossible to cional legislation it would be impossible to enforce such regulations as were necessary for executing the law and refrained from making regulations. Consequently manufacturers instituted suits in the Court of Claims for the rebate of the tax, which has accrued on alcohol used in the arts since Aug. 28, 1894, and these claims now amount to \$10,000,000. To stop the accumulation of claims the committee decided to report the bill to the House without delay. A similar bill was passed by the last House in its closing hours, but failed to pass the Senate.

WASHINGTON, April 15. Assistant Sec etary Hamlin, of the Treasury Department, as sent a letter to Chairman Hepburn, of the House committee on commerce, in reply to a resolution introduced by Mr. Hardy, of Indiana, calling for information as to the amount of freight delivered to Canadian railroads under bond through the United States customs officials during the past three years. years. According to the information in pos-session of the treasury, which was secured by the United States customs officials; the total amount last year was, in round num-bers, 8,000,000 tons of freight, which was contained in 430,000 loaded cars. This was an increase over the amount of bonded freight in 1894, but was less than the traf-fic of 1893. In 1893 there were 450,000 loaded cars and in 1894 420,000 cars in round num-

All in Favor of Contestees. WASHINGTON, April 15.-Elections committee No. 3 to-day disposed of three cases, eaving but one to be acted upon by this committee. The contest between John Brown, Populist, vs. John M. Allen, Demoorat, from the First Mississippi district, was
decided in favor of Mr. Allen; A. M. Newman, Populist, vs. J. G. Spencer, Democrat,
Seventh Mississippi district, was decided in
favor of Mr. Spencer. The committee, in
the third case, found that Giles Otis Pearce,
independent Labor, received 157 votes, as
against 47,000 for John C. Bell, Populist, and
the latter was given the seat. This contest
came from the Second district of Colorado.
In each instance the action of the committee was unanimous in allowing the sitting tee was unanimous in allowing the sitting member to retain his seat.

REMEDIAL BILL WITHDRAWN.

Too Much Obstruction to the Measure in the Canadian Parliament.

OTTAWA, Ont., April 15 .- At 11:30 o'clock to-night Sir Charles Tupper, in the House of Parliament, rose to withdraw the remby a subcommittee of the board." He eucliogized the work of the homes, which, since their establishment, had cared for 75,000 soldiers and had expended \$40,000,000 without the loss of a farthing. The Keeley League, he said, was formed in 1892. Over 1,300 soldiers had taken the cure and there had been only after the supply was granted. He moved that the committee rise and report prog-ress. Mr. Laurier, in reply, denied obstruction and showed that the opposition had amended, and perfectly, every clause the bill that was passed. The government had a large majority and ought to have introduced the bill earlier and put it introduced the bill earlier and put it through. Whose fault was it, he asked, that the crisis took place in the Cabinet, that Ministers had resigned and that the bill was not gone on with until after two months of the session had passed? It was not the fault of the opposition, but of the government, and he was prepared to leave to the judgment of the people the charge of obstruction laid against him and his party.

MUST RETURN TO ITALY.

Over 500 Immigrants, Detained at El lis Island, to Be Deported.

NEW YORK, April 15.-The immigration uthorities at Ellis island to-day ordered 531 Italians, at present detained there to be sent back to Italy. Twenty-six were deported today and the others will be sent home as fast as possible. Commissioner Senner to-night telegraphed to the Treasury Depart-ment at Washington that he did not like the attitude of the deported men and their friends, and appealed to the department for permission to swear in special guards. The commissioner also asked for permission to arm the guards, so that they will be able to cope with the men should any violence be attempted.

PROF. J. MILTON POGUE, AT FORT-VILLE, MAKES A DISCOVERY.

Four Convicts Who Escaped from Michigan City Retaken on the Lake Shore-Religious News.

special to the Indianapolis Journal. FORTVILLE, Ind., April. 15 .- To-day J Milton Pogue, teacher of science in the Fortville High School, together with his class, made a discovery which shows that the X ray is beyond a doubt in the sun's rays. The Professor had a dark room prepared for experiments in light, and while making the "forte luminare" for the use of the lens and spectrum the discovery was made. After further investigations it was shown that the bones of the fingers and a part of the hand, together with the blood vessels and tendons, were quite plain. The opening used was about two inches in diameter and the hand placed over the opening on the inside. Further investigations will be made as the Professor is very much elated over the dis-

Muncie Presbytery.

Special to the Indianapolis Journal. NOBLESVILLE, Ind., April 15 .- The Pres bytery of Muncle began its spring session in the First Presbyterian Church of this city last night. The retiring moderator, Rev. Harry Nyce, of Peru, preached to a large audience. Nearly every church in the presbytery is represented. The meeting was organized by the election of Dr. John M. Davies, of Noblesville, as moderator, and Rev. C. E. Kircher, of Alexandria, as clerk. The sessions to-day were occupied with the presentation of reports by committees and consideration of the interests affecting the ministers and churches. Rev. Mr. Cloud, a student of McCormack Theological Seminary, of Chicago, was examined and licensed.

The twentieth annual meeting of the Woman's Missionary Society of Muncie Presbytery was also held here to-day. Reports and addresses were made by the following ladies: Mrs. E. J. Dukes, Peru; Mrs. Phillip Jamieson, Elwood; Mrs. Arthur E. Mrs. J. H. Howard, Muncie; Mrs. Wilson, Winchester; Mrs. F. S. John-Marion; Mrs. M. E. Beal, Jonesboro, and Mrs. Charles Little, Wabasn. To-night the sessions closed with a popular meeting, at which addresses were made by Mrs. Little and Mrs. Howard and by Rev. Robert H. Milligan, of Chicago, late of Efulen, Africa. The "Indiana plan" was passed over without much discussion, the delegates realizing that the subject was too delicate to bear much airing at this time, and leaving the whole subject for the consideration of the General

SIXTH DISTRICT CONVENTION AT

The Local Campaign at Columbus.

Columbus, Ind., April 15.-The approaching city election promises to be a very interesting one. Ten members compose the city council, and for the last two years the Republicans have been in control, having six members and the mayor to the Democrats' four members. In this time the water works system has been greatly improved by replac-

As to Baseball.

Chicago Post.

The Indianapolis minister who has boldly declared that he can see no harm in Sun-day baseball if played where the rights of others are not invaded is a progressive Christian gentleman. Baseball is like fac-tory whistes, church chimes, piano organs and Salvation Army ditties-the trouble al lies in the noise. Per se, there is no more harm in swatting a ball on the Lord's day than in clanging a bell, but there is a great offense when ten thousand maniacs yell like demons because a local favorite makes third base on a wild throw, and for that matter the offense applies to Wednesday as well as Sunday. Let us not grieve over the wise words of the parson, for the world is getting better. They play a superior game of base-ball down in Indianapolis, and the work of dedicating churches goes bravely on in Le-

Preferred the Name "Negro."

That J. Milton Turner should be laid up with a fractured skuli as the result of a blow from a pitcher in the hands of his daughter seems to disprove the common theories as to the hardness of a negro's head. The word "negro" is used advisedly, for Mr. Turner has made a long and persistent fight against the foolish expression "colored man," rightly setting forth that if it means any ightly setting forth that if it means anyhing at all it means exactly what the negro is not. "You may call us niggers if you choose," he was accustomed to say, "obchoose," he was accustomed to say, "ob-noxious as the expression may be, but we are not colored. Only fashionable white women are colored."

Pauper Immigration. Christian Advocate.

There is reason to believe that more stringent regulations concerning immigration should be adopted at once. The pauper or the criminal should be left in the land of his birth. When nations discover that they cannot unload their refuse population upon

other countries they will begin to wake up to a sense of duty to their people. A little apparent harshness upon the part of the United States might work great good to the countless thousands who will first see the light in Russia, Austria, Hungary or Italy.

Nor should the ignorant be permitted to come in. The country's resources might develop a little less rapidly, the wages of workingmen might be a little higher, prices might advance a little all around, but the

results would be good and n pauper, the criminal, and the excluded, if political corruption of existence, and if public sol at Martinsville.

excluded, if political corruption fiven out of existence, and if public sch. and private educators take hold of the fittle children of the slums, teaching them the main facts of American history, including reverence for the flag, and, beyond all, teaching them the use of tools, the future of this Republic is likely to be as brilliant as the most vivid imagination could picture. Every patriotic citizen should work toward securing these ends.

Who Invented Baked Beans! New York Sun. Our philosophical contemporary, the Providence Journal, is never weary of the thoughtful discussion of important ques-

tions of literature, science and finance. It is no surprise, therefore, to find this philosopher asking a question moist with interest for the hearts and stomachs of men: "Who was the inventor of baked beans?" Whoever it was, it is likely enough that he was greater than the greatest man whose name frowns superciliously from the pages of his-tory. He has been responsible for much comfort and some indigestion; for all the literature of Massachusetts, and for a base ball nine, which in its day was of an un-equalled splendor. The philosopher from the Providence Plantations remarks that "Aremus Ward declared that one Gilson, who ormerly kept a restaurant in the shadow of Beacon hill, deserves the honor" of inventing the great Bostonian staple. BOTH ARRESTED FOR ARSON

Result of Fire Last Night at 264 Indiana Avenue.

There was a fire last night at No. 264 Indiana avenue, occupied by Oscar and Ella. Lemcke, with a stock of books, which was extinguished with small loss. The police investigated, with the result that the man and woman were arrested for arson. They came here but a few months ago and opened the store, placing insurance on the stock. Both claim to have been away at the time of the fire. It is alleged that there was no fire in the room and but for the discovery of neighbors serious loss would have resulted. An additional charge of immorality was placed against each.

happy man in your life who had indiestion. If a man gets up in the morning with a foul taste and minute he steps out of bed; if his breakfast doesn't taste good; if he feels utterly incapable of work, it is a pretty sure sign that his digestion is out of order—that his principal trouble is constipation. If he lets this condition run on, there is no telling where it will stop. Nine-tenths of all human sickness comes

from constipation. The first thing that every doctor asks when he is called to see a patient is whether the bowels are in good order. It is nonsense to call a doctor for such a simple thing. It is nonsense to let such a simple thing grow into such a serious thing, as it always does if neglected. Dr. Pierce's Pleasant Pellets cure constipation. They not only afford immediate and pleasant relief from all the distressing symptoms, but they cure permanently and positively. There are 10,000 medicines that can be taken, to give temporary relief.
